

## Forest Service, USDA

## § 294.2

under appropriate conditions determined by the Chief, Forest Service.

(b) Grazing of domestic livestock, development of water storage projects which do not involve road construction, and improvements necessary for the protection of the National Forests may be permitted, subject to such restrictions as the Chief, Forest Service, deems desirable. Within Primitive Areas, when the use is for other than administrative needs of the Forest Service, use by other Federal agencies when authorized by the Chief, and in emergencies, the landing of aircraft and the use of motorboats are prohibited on National Forest land or water unless such use by aircraft or motorboats has already become well established, the use of motor vehicles is prohibited, and the use of other motorized equipment is prohibited except as authorized by the Chief. These restrictions are not intended as limitations on statutory rights of ingress and egress or of prospecting, locating, and developing mineral resources.

(c) All prohibitions for those areas of National Forest classified as *Primitive* on the effective date of the Wilderness Act, September 3, 1964, are in part 261.

### PART 294—SPECIAL AREAS

Sec.

294.1 Recreation areas.

294.2 Navigation of aircraft within airspace reservation over the Boundary Waters Canoe Area Wilderness, Superior National Forest, Minnesota.

#### § 294.1 Recreation areas.

Suitable areas of national forest land, other than wilderness or wild areas, which should be managed principally for recreation use may be given special classification as follows:

(a) Areas which should be managed principally for recreation use substantially in their natural condition and on which, in the discretion of the officer making the classification, certain other uses may or may not be permitted may be approved and classified by the Chief of the Forest Service or by

such officers as he may designate if the particular area is less than 100,000 acres. Areas of 100,000 acres or more will be approved and classified by the Secretary of Agriculture.

(b) Areas which should be managed for public recreation requiring development and substantial improvements may be given special classification as public recreation areas. Areas in single tracts of not more than 160 acres may be approved and classified by the Chief of the Forest Service or by such officers as he may designate. Areas in excess of 160 acres will be classified by the Secretary of Agriculture. Classification hereunder may include areas used or selected to be used for the development and maintenance as camp grounds, picnic grounds, organization camps, resorts, public service sites (such as for restaurants, filling stations, stores, horse and boat liveries, garages, and similar types of public service accommodations), bathing beaches, winter sports areas, lodges, and similar facilities and appurtenant structures needed by the public to enjoy the recreation resources of the national forests. The boundaries of all areas so classified shall be clearly marked on the ground and notices of such classification shall be posted at conspicuous places thereon. Areas classified under this section shall thereby be set apart and reserved for public recreation use and such classification shall constitute a formal closing of the area to any use or occupancy inconsistent with the classification.

(Sec. 1, 30 Stat. 35, as amended, 62 Stat. 100, sec. 1, 33 Stat. 628; 16 U.S.C. 551, 472)
